# FELLOWSHIP IN SURGICAL AND DENTAL SLEEP MEDICINE TORONTO REHAB INSTITUTE

---

2026/2027

## **General Information:**

Department Name: Department of Dentistry

Name of Fellowship: Fellowship in Surgical and Dental Sleep Medicine

Fellowship Site: UHN – Toronto Rehab Institute

Fellowship Start Date: July 1, 2026

End Date: June 30, 2027

Name of Supervisor: Tina Meisami (Program Director)

Telephone: 416.923.2100 ext. 231

Email: [tina.meisami@uhn.ca](mailto:tina.meisami@uhn.ca)

## **Fellowship Overview:**

Obstructive sleep apnea (OSA) is a common disorder affecting at least 2-4% of the adult population and is associated with a diminished quality of life, hypertension, diabetes, and cardiovascular disease, thereby making it a significant public health concern. As such, treatment of OSA is in growing demand from the public.

The aim of the Fellowship in surgical and dental sleep medicine is to provide trainees with the clinical education and surgical experience necessary to develop understanding and expertise in providing treatment for obstructive sleep apnea (OSA) and snoring. Particular focus is placed whereby treatment of OSA will have a profound impact on patient's systemic and overall health.

Trainees will develop expertise in:

- Assessing and treating patients for OSA
- The surgical and non-surgical management of patients with sleep breathing disorders
- The diagnosis and management of complications following mandibular advancement device (MAD) therapy and maxillomandibular advancement surgery (MMA)
- Cross-disciplinary treatment of OSA with sub-specialities in sleep medicine, such as Respiriology, Otolaryngology, and Neurology.

The 12 month Fellowship in Surgical and Dental Sleep medicine will combine "core" clinical rotations in surgical and dental sleep medicine and rotations in key disciplines whereby referral to dental sleep medicine is based on cross-disciplinary management of chronic disease and systemic management of ramifications of Sleep Breathing Disorders. Clinical and translational research will also be a vital component of the Fellowship, with dedicated research time centered around clinical decision making and quality improvement.

Fellowship: Sleep Surgery and Dental Sleep Medicine. Tina Meisami, BSc, DDS, FRCDC, ABDSM
